

INTRODUCTION

- Supernova Engineers Ltd. established in 1985 for providing state of the art captive power solutions.
- Serving India's leading corporate houses, today Supernova is a reliable name in captive power solutions.
- Supernova produces world-class silent DGs tuned for 75 dba noise levels in 7.5 – 2250kVA range.
- Currently the Supernova Group has fully operational Genset manufacturing plant at Rajpur and EOU at Silvassa.

25 YEARS OF EXPERIENCE

MANUFACTURING PLANT, 1985

MANUFACTURING PLANT, 2010

OUR VISION

To be a market leader in captive power solution segment by providing innovative solutions and utmost customer satisfaction.

OUR MISSION

To establish a strong network of sales, service and continuously improving quality and focusing towards customized solutions.

THE JOURNEY

1987: RAJPUR PLANT

Supernova's 1st plant

Spread up: 1,00, 000 sq. ft.

Annual Output : Production of 12,000 acoustic enclosures certified by the National Aerospace Laboratories

1996: SILVASSA PLANT

Supernova's 2nd plant, established to meet the rising demand of its Gensets.

Annual Output : Assembling 4000 Gensets.

OUR STRENGTHS

- 26 years of Engineering experience in identifying and selecting 'best of the world' technologies to build gensets that are dependable, efficient and highly durable
- Supernova has mastered the art of customizing power solutions – starting from conceptualizing, designing, manufacturing, testing, supplying, installing and commissioning

OUR STRENGTHS

- Workforce of qualified and experienced engineers
- Using the best engine in the product from the partners for excellent performance
- Online and on site support system
- Sales network
- More than 55,000 installations across category

OUR MANUFACTURING PLANT

OUR MANUFACTURING PLANT

RAJPUR PLANT

Plot Area: 20500 sq.mtr.

Construction : 9169 sq.mtr.

- Added fully automatic CNC Sheet Metal fabrication plant of 350 T/Month.
- Installed fully automatic state of the art largest in Gujarat, Pre-treatment & Powder Coating Plant.
- Added Cranes & other Material handling Equip.
- Installed the DG Sets manufacturing Line.
- Added DG Testing Load Banks & other facilities.
- Increased staff & contractors.

OUR MANUFACTURING PLANT

SILVASSA PLANT

Plot Area :	2515 sq.mtr.
Construction :	1460 sq.mtr.
Ramped-up production:	30 DG/day

- Added Cranes & other Material handling equipments.
- Added DG Testing Load Banks & other facilities.
- Increased staff & contractors.
- Expanded Office /Work Place.

OUR CAPABILITIES – MACHINERIES

**AUTOMATIC SHEERING,
CUTTING & BENDING**

**AUTOMATIC POWDER
COATING**
